Andrea,

I've just received a couple of additional questions. They are:

Does EPA intend to cover both active and inactive mines?

What would trigger a release of CERCLA FA? Would it be completed reclamation under a state permit?

If any late questions come in tomorrow I will forward them to you as well.

Thanks again,

Beth

Hi Chris and Beth,

I'm working with OLEM on the agenda for Tuesday's 108(b) call and wanted to check in w/you to see if you had any idea of what states might want to discuss? So far, we've gotten one question from SD regarding the impact of the rule on states that require post-closure and cyanide spill bonds. Any suggestions from your end are much appreciated!

Thanks,
